

Full Day Workshop

Wednesday, 26 October 2005

Girls Do The Maths

Attention Young Women doing Extension 2:

Do you enjoy Maths?

Did you know that you can do Maths for a living?

Mathematics is a dynamic area of research in numerous fields such as biomedical research, statistical analysis and financial markets.

Mathematics reveals hidden patterns that help us understand the world around us.

It is a diverse discipline that deals with data, measurements, and observations from science; with inference, deduction, and proof; and with mathematical models of natural phenomena, of human behavior and social systems.

What's more, the muscles required for mathematics are of the intellectual kind!

Want to know some more? The University of New South Wales is holding a special workshop to highlight some of the unique career and study opportunities Mathematics can offer.

When: Wednesday, 26 October 2005

Where: Maths @ UNSW
