

**UNIVERSITY OF NEW SOUTH WALES
SCHOOL OF MATHEMATICS AND STATISTICS**

**ANSWERS TO SOME FREQUENTLY ASKED QUESTIONS
ABOUT 1ST YEAR COURSES**

Semester 2, 2008

- The School of Mathematics and Statistics is located in the eastern end of the RED CENTRE building.
- **Semester 2 starts** with week 0 on 21 July. There will be introductory lectures to the computing facilities in the School during week 0.
- **Lectures begin** in week one of semester (July 28 – August 1).
- **Tutorials begin** in week one of the semester.
You are expected to attend all tutorials in week 1, even if they occur before your first lecture in the course.
- **The location of tutorials** is available to you via your timetable on myUNSW. To create tutorials of roughly even sizes, some tutorial classes may need to be closed, or opened, during week 0 and week 1. If you are affected by any tutorial room changes you will be notified by email to your official UNSW email account,
zSTUDENTNO@student.unsw.edu.au.
During week 1, it is good practice to check your timetable regularly on myUNSW.
- **Textbooks** are listed on the back of this sheet. They are available from the UNSW Bookshop, which is located in the western part of the Quadrangle Building. Purchase of textbooks is not compulsory, but is highly recommended. They provide an extra interpretation of material presented in lectures and give an additional breadth of coverage.
- **Course Packs** and **Computing Notes**, which are very strongly recommended for all students, will be on sale at the UNSW Bookshop.
- **The First Year Office** for the School of Mathematics and Statistics is in room 3072 on level 3 of the Red Centre.
- **For further information** read carefully the Information Booklet contained in your Course Pack. The Information Booklets are also accessible through my eLearning on the University's Vista server, and also from the School web pages
