

School of Mathematics and Statistics
FIRST YEAR TIMETABLES, 2018
SEMESTER 2

Students in MATH1011, and MATH1251 must attend **TWO** Algebra lectures, **TWO** Calculus lectures, **ONE** Algebra tutorial and **ONE** Calculus tutorial each week. In courses where there is more than one lecture group, it is possible (if your timetable requires it) to take the Algebra lectures from one group and the Calculus lectures from another group, but it is **NOT** possible to mix Algebra lectures from two groups or Calculus lectures from two groups. Student in Math1131, Math1231 and Math1241 will attend Tutorial 2 each week, and Tutorial 1 in weeks 6, & 11 for tests only. Please refer to course outline. Students in MATH1041 must attend **ONE** tutorial and **ONE** computing laboratory class. **NB: From the beginning of week 2, students can only change tutorials by seeing Student Services Offices, Red Centre building, level 3 (3072 / 3088), School of Mathematics and Statistics.**
